In response to the Office Action mailed on March 28, 2001, please amend  
the above-identified application as follows:

In the Specification

On page 1, line 3, before "which is a continuation of", insert - - now U.S.  
Patent No. 6,164,707, - -.

Remarks

Reconsideration of the above-identified application is respectfully  
requested.

Claim 7 stands rejected under 35 U.S.C. §102(b) as being clearly  
anticipated by either U.S. Patent No. 1,325,113 to Rohn or German Patent No.  
3,503,215. Neither of these patents however discloses the swivel joint recited in  
claim 7. Therefore, claim 7 is not anticipated by either Rohn or the German  
patent.
